

Your personal data report

Marcus Bell

Request AR-4207 · Requested July 8, 2026 · Prepared July 10, 2026

Covers: Northwind Outfitters, Cascade Home, Alpine Rewards

Here's everything we have.

Hi Marcus,

On July 8 you asked to see the personal data Meridian holds about you. This report is our complete answer. It covers all three of our brands, every system where your data lives, and your full history with us — including your Alpine Rewards points, since we know that's what prompted your question.

A quick guide to what follows: pages 3–4 summarize what we collect and why, as California law asks us to lay out. Pages 5–8 are your actual data. Page 9 explains your options from here — including deletion, if you still want it after reading.

One note on privacy that isn't yours: a few of your support conversations mentioned other people — our agents, and in one case another customer from a shared purchase. We've blacked out their details, for the same reason we'd black out yours in someone else's report.

If anything here looks wrong, page 9 tells you how to fix it.

The categories, in plain language.

Category	What that means for you	
Identifiers	Your name, email address, postal address, phone number, and your customer ID.	where this appears in your data p. 5
Commercial information	Your orders, returns and exchanges, and your Alpine Rewards points activity.	where this appears in your data pp. 6–7
Internet activity	Which of our emails you open and click, and your visits to our sites while signed in.	where this appears in your data p. 8
Geolocation (coarse)	The city and state we ship to and the general region your devices report. Never precise location.	where this appears in your data p. 5
Inferences	Interest groups we place you in to pick what to show you — for you, “Hiking & trail” and “Home textiles.”	where this appears in your data p. 8

California law (CCPA/CPRA) asks us to lay out the categories of personal information we collect, where it comes from, why we use it, and who we share it with. This page and the next are that summary; pages 5–8 are the data itself.

Where it comes from, and where it goes.

What you can do next.

Delete your data

Still want to? You can. One honest note first: deleting your account permanently forfeits your 12,480 Alpine Rewards points, and we can't restore them later. If you're sure, start a deletion request the same way you started this one — it takes about two minutes.

Fix something

If anything in this report looks wrong — an address, an order, a preference — ask us to correct it. Submit a correction request and point us at the page number; we'll take it from there.

Ask us anything
